

Mike Runyan, Harmonica

## Tech Requirements

1. **Microphone(s)**: For harmonicas, a good quality dynamic microphone (such as Shure SM58); for some numbers (*Once Upon a Time in the West* and *A Cowboy Harmonica Christmas*), a wireless lavalier mic (such as Sennheiser MKE-2) is required. The channel should have reverb and be equalized for harmonica (highs rolled off). If the production requires Mike to speak, a separate mic, EQ'd for speaking is recommended.
2. For *Pops Hoe-Down* and *Bugler's Holiday* – a **Percussion Tray Table** (or equivalent) preset; approx. 12"x18".
3. For *Once Upon a Time in the West* – **Follow Spot** and **Steps** from house to the stage (Mike walks, while playing, through the house or along the front of stage apron and up onto the stage).
4. For *Galloping Comedians* – **Backlighting** (such as an orchestra wash) and **Front Lighting** such that there is a void to which Mike can face when juggling. **Lighting check is required prior to performance.**
5. Dressing room must have a **clothes rack** for costumes with access to an **iron and ironing board**. Depending on program order, a backstage quick-change area may be needed.
